The change in position a generally

nearly every day at that figure.

The change in position s generally attributed to the disappearance of demand for coal from the Lower Connellsville region. While the strike in the Pittsburg coal district is not settled more miners have returned to work and fully one-third the capacity of the union mines is in operation. of the union mines is in operation, while the non-union fields in the district are working hard. There are free offerings of West Virginia coal at \$2.00, delivered, and that price might even be shaded. Consumers have not been buying coal this week, as their purchases of last week, at rather fancy prices, will carry them through this week and the balance of probub-ility is that more miners will return to work. COKE TRADE SLIMARY.

The Connellsville coke operatory case oven doing an excellent tool by sinces on the side for a course of weeks past. The demand developed dering the mrs' week in this month, when some \$0,000 tons were shaped out. This was not unusual, Last week, however, the demand became acute on account of the strike of the Pitisburg district miners, and threatened to self-outly embarress some of the mile The Lower Connellsville region shipped some \$1,000 tons on this demand at \$175 to \$1.00 at the rine, equivalent they say to \$1.50 \$2.50 at the rine, equivalent they say to \$1.50 \$2.50 at the ovens. In consequence of this shipments of coke from the Connellsville region last week dropped down to 105,000 tons, a recossion of \$2,000 tons as compared with the privious week. Praduction more than kept pace. The region operated ostensibly six days, but very few merchant ovens made more than are day runs. The Connellsville coke business was a bit slack last week some of the fur-naces being out for repairs and others well stocked with fuel, and opportunity offering the Connellsville oper-ators took a profitable flyer in coal. Because of the strike in the Pittsburg district the demand for coal became active last week and fancy prices were offered. The Connellsville operators marketed approximately 45,000 tons at prices ranging from \$1.75 to \$1.90 per ton at the mine, which is said to be equivalent to coke at \$2.75 to \$2.85 at the ovens. It was a neat turn for the needy beelingers and most of them took a turn at it, shipping the mine run of one day or more.

This condition caused a decided O ORGANIZE A slump in coke production and shipments. The former went down to 405,000 tons and the latter to 408,000 tons, a drop of 22,000 to 26,000 tons. It will be noted that the coal shipped Monongaheln Valley Rebel Against

Catifornia to the extent they appear in the East. Too much politics out here for the good of the state, and it is not national either. The whole trouble seems to be 'too much Johnson. At this writing it looks like the Bull Moose were on the run out here where they have boasted of their en-

trenched position.
"The fruit crop this year gives promise of being the greatest in the history of the state. Last year was great but the outlook this season is far better. The raisin industry, of which Fresno is the center will be far ahead of last year when one company slope period and marketed more alone packed and marketed more than 100,000 tons. This is a company composed of 7,000 growers, and by the way, is headed by a Westmoreland county man, Wylie M. Giffen, who was born near Mount Pleasant.

Woodiake, where I am moving, is in the citrus fruit belt in the foot hills of the Sierra Nevada mountains; about 50 miles southeast of Fresno. It is a beautiful country and one can travel many miles through orange and lemon groves, the roadways lined with hedges of roses and flowering shrubery, drives of palm and ornamental trees, grand almost be-yond description. The town of Woodlake is four years old and is as modern as it is new, the streets being John H. King, quictly celebrated her registrars in the seven wards of Concurbed, cement sidewalks throughout 194th birthday Tuesday at her home and the roadways oiled. Sewers, waterworks and other modern improvements make it a most desirable place to live. Its location is also very pretty, being on the shores of a beautiful little lake of about 400 acres. literally alive with game fish. The oranges grown in this district are not excelled anywhere, and to give you an idea of what real oranges taste like I am soing to introduce The Courier force to the Woodlake variety next season, just for the sake of old times.

### NOT BRADDOCK'S HOUSE

Gibson Family Object to Alleged Impo-sition by Posteard Makers.

John Gibson of Dunbar is indignant over what he terms a dishonor to the memory of his great-grandfather, Joshua G. Gibson, by the publication and sale of postcards purporting to contain a picture of "Braddock's Old Stone House." The picture, Mr. Gib-son says, is not that of Braddock's house, but one of the old Gibson homestead, built in 1800, at least 50 years after General Braddock was killed. The Gibson home was built by Joshua Gibson and it has no connection with Braddock at all. Enterprising postcard makers apparently used it because of its picturesque appearance and named it Braddock's stone house in an effort to add historic interest to the picture.

The Gibson family contemplate legal action to prevent further imposition of this character.

### Travel Talk

Little Talks on Health and Hyglen by Samuel G. Dixon, M. D., LL. D., Commissioner of Health,

The summer travel season has arrived. Thousands of mothers and children will soon be on their way to the country and the seashore.

Observation would seem to justify the statement that the majority of mothers traveling with small children fortify themselves against possible contingencies by providing cakes. sweets, fruit or something edible to pacify their youngsters.

Every traveler is familiar with the sight of infants of various ages engaged in feeding themselves. Despite the efforts to keep the aisles and seats of passenger coaches clean they come soiled by contact with dirty boots.

Children are quite commonly permitted to play or creep over the car floor and seats and then stick their food into their mouths. It is obvious to the most ensured at fingers and toys and any available is an exceedingly uncleanly habit ford, injuring him internally.
